DETAILED ACTION

Election of Species requirement of Office Action is in response to the election filed 04/24/03.

Election/Restrictions

1. Claims 25 and 39 are generic to a plurality of disclosed patentably distinct species comprising an antibody that binds to proteins with amino acid residues comprising 1 to 272, or consisting of amino acid residues 23 to 32, 61 to 68, or 141 to 148 of SEQ ID NO. 125. According to the way the claims are written, the applicant is claiming isolated antibodies and fragments thereof that specifically bind to proteins that consist of the one of the above sequences. It is known to one of ordinary skill in the art that the general utility of the antibody is to detect proteins. Thus, if one has a specific antibody, one would use it to detect the protein. Because each of the different protein fragments has different amino acid sequences and is essentially a different protein, and Applicant is claiming more than one type of antibody. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was made to Janet M. Martineau, whose voicemail message directed the Examiner to call Robin Roberts at 301 610 – 5762 on June 24th and 25th of 2003 to request an oral election to the above election of species requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

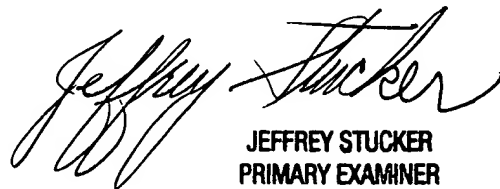

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emily Le whose telephone number is (703) 305-4452. The examiner can normally be reached on Monday - Friday, 7 am - 3:30 pm.
